Subject: Rig NPDES pre-audit

Hi Rick,

I wanted to check in with you and update you regarding our current schedule for the rigs and the pre-audit. I think last time we spoke we thought we'd be able to get you on the rigs around mid-May but as of now it looks like the target week is going to be the first week of June. We'd like to get you on the rigs while they are both at T5 rather than try to jump from Port Angeles and Port of Everett. I hope the change in the schedule will still work for you. By chance have you been in contact or coordinated anything with the BSEE representative?

On another note has there been any progress with respect to the NetDMR or paper DMRs?

Let me know if you have any questions about the pre-audit, dates or anything.

Hope all is going well with you.

Regards,

Lana
